

EVF PUMP Priming Grant

The European Venous Forum (EVF) is pleased to announce an EVF Research PUMP Priming Grant to a maximum value of (€5,000) for a candidate to initiate /commence a research project in phlebology.

The grant is open to trainee/specialists under 40 years of age at time of application

To apply, the candidate needs to supply:

- a) Up to a 1000 word application outlining the research costs and aim of the potential benefit of the research to the phlebology and endovascular world.
- b) Curriculum Vitae.
- c) Letter from their Head of Department and/or a senior colleague/specialist, confirming that they have read and checked the application and fully support it.

Closing date of application: 2nd April 2012.

The winner will be expected to attend the 2012 meeting of the European Venous Forum and present their work in a 10 minute presentation

Applications should be sent to:
